Description

Use DRAW button and plan through game fully. Look for card repetition, noticeable errors, noticeable downtime, button functionality.

Steps:

- go to localhost:3000 while running nodemon on VSCODE
- Click *Draw*
- Click *Add to Duo*
- Click *Add to Duo*
- Click *Duel*
- Click *Play Again*

Expected Result:

- User should see all bot cards to choose from
- After clicking bot, the bot of your choice should populat to Your Duo
- After duel button, should populate winner and change win:lose counter
