Description

Use *See All Bots* button and click on bot cards. Look for any repetition on characters or if any numbers are outliers in comparison to the others

Steps:

- go to localhost:3000 while running nodemon on VSCODE
- Click *See All Bots*
- Click on Character cards, look for similar bot pictures or names
- Look for missing values for attack and health
- Look for any outliers in data or numbers

Expected Result:

- User should see all available bots
- There should be no duplicates, empty or missing values, or outliers
